

Geography – Water World Learning Journey

GEOGRAPHY KS3		Baseline Position											
Topic	ELEMENT	Year Group	Step										
			1	2	3	4	5	6	7	8	9		
Water World	I can identify the physical features of the water cycle.	7											
	I can describe the physical features of a drainage basin.	7											
	I can describe processes of erosion, transportation and deposition.	7											
	I can describe the characteristics of a waterfall and a meander.	7											
	I can explain the formation of a waterfall and gorge.	7											
	I can explain the development of a meander and an oxbow lake.	7											
	I can explain the causes of flooding.	7											
	I can analyse the social, economic and environmental effects of flooding.	7											
	I can evaluate the methods of hard and soft engineering.	7											

Lesson	Learning Focus	Assessment
1	What is the water cycle?	
2	What is the drainage basin?	
3	How do rivers erode, transport and deposit material?	
4	How do waterfalls and gorges form?	Exam Question
5	How do meanders and oxbow lakes form?	
6	What are the causes and impacts of flooding?	Exam Question
7	What are the different impacts of flooding in LIC's and HIC's?
