Assignment title: Understanding how factors affect our growth and development

A.2M1 Compare the different factors that have affected growth and development across three life stages for a selected individual

A.2D1 Assess the changing impact of different factors in the growth and development across three life stages of a selected individual

For Level 2 Merit learners must compare the relevant factors that may have affected the growth and development of an individual across the three life stages, examining the benefits or otherwise of each factor presented in terms of what had the greatest to the least effect

For Level 2 Distinction learners must carefully consider relevant factors and how their impact changes over time, including which factors are most important at each of the three chosen life stages. For example, learners may explain how and why a particular social factor was important in one life stage but much less so in another.

M1 Task
I compared the factors that affected X over all three life stages (NAME THEM)
Over the three life stages I looked at, the factor that had the biggest impact was...
It had the biggest impact because of the positive/negative effect it had (EXPLAIN THIS IN DETAIL)...
Other factors that had a positive/negative impact when compared with this were...
In comparison the factor that had the least impact was...
It had the smallest impact because of the positive/negative effect it had (EXPLAIN THIS IN DETAIL)...

D1 Task

I then **assessed** how the impact of the factors changed over time.

In my **first** life stage (SAY WHAT THIS IS) the factor that was the most important was...

Because (EXPLAIN THIS IN DETAIL)...

In my **second** life stage (SAY WHAT THIS IS) the factor that was the most important was...

Because (EXPLAIN THIS IN DETAIL)...

In my **third** life stage (SAY WHAT THIS IS) the factor that was the most important was...

Because (EXPLAIN THIS IN DETAIL)...

I found that some of the impacts of the factors on my celebrity changed over time...

For example, X factor was important in X life stage but by the time X was X the impact had reduced/increased because...

X factor was important in X life stage but by the time X reached X the impact had reduced/increased because...

X factor was important in X life stage but the impact had reduced/increased over time because...

In conclusion the factor that had the **most** effect on X was (NAME FACTOR) in X life stage (NAME IT) because (Summarise)

The factor that had the **least** effect on X was (NAME FACTOR) in X life stage (NAME IT) because (Summarise)
