

Lesson Focus

Drawing techniques – Basic Orthographic

- **Must** draw an object in Orthographic projection.
- **Should** draw an object in Orthographic projection with measurements and accuracy.
- **Could** draw several objects in Orthographic projection with measurements, accuracy and the drawing is of a high quality.

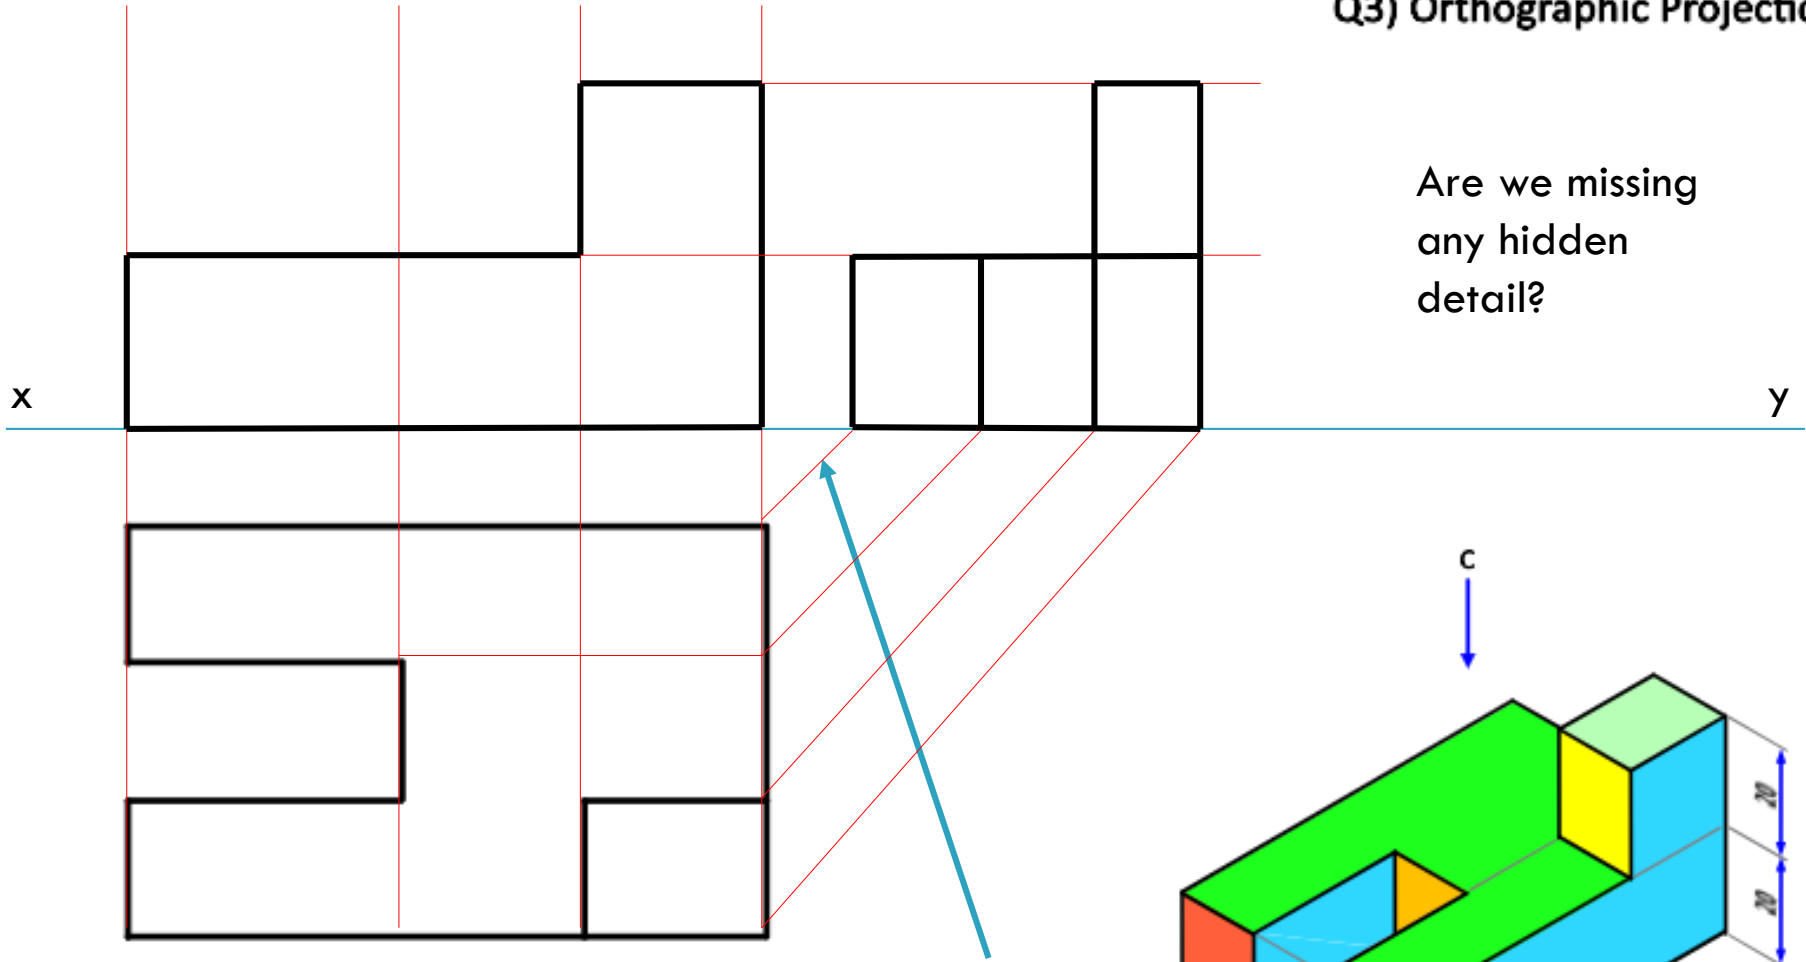

Q2) Orthographic Projection

We have two things left to do, what are they?

Q3) Orthographic Projection

Are we missing any hidden detail?

You are not given an XY line! You need to put it in 15mm above the plan
