

WATERCOLOUR RESEARCH

- **In preparation for doing a Tim Burton piece of work in watercolour, research watercolour techniques. Then think about which ones you would need to paint the images on the following slide.**

Include:

- **A title- Watercolour techniques**
- **Images of different watercolour techniques**
- **Comments on which ones would be most useful when responding to the work of Tim Burton.**

**CHOOSING APPROPRIATE
IMAGES FOR WATERCOLOUR**

WATERCOLOUR TIPS

Use a higher ratio of water for lighter colour

Use a higher ratio of paint for a darker colour

Use water to blend two colours together and to fade from dark to light

Leave paint to dry before painting next to it if you require a sharp edge

Always hold your brush at the bottom for maximum control
