

NAME: _____

WHEN WORKING WITH IMAGES, WHAT IS OPTIMISATION?

ATTEMPT 2:

Use this scaffold to help.

1) Start by saying what
Optimisation is.

e.g. Optimising an image is...

Tip: Making the file size smaller.

**Keywords; Reduce, pixels,
image, file, size,**

2) Describe what software you
can optimise images in.

**e.g. The software you can use
to optimise an image is...**

*Tip: Image editing software, don't
forget to include the full name of the
software you used!*

3) Describe the function/job of
each tool

**e.g. The two main things you
need to do to optimise an
image is...**

**Keywords; Resize, Crop,
Delete, Save**

4) Conclude with a sentence
explaining why it is
important.

**e.g. Optimising images is
important because...**

**Keywords: saves, space, hard
drive, faster, download.**
