

Close your eyes

Get a family member to hand you a random object

What is the shape like?

What is the texture like?

Now try and draw it!

Close your eyes

Your partner will describe an object
Listen carefully to them describe the shape and texture

**Try and draw the object they are
describing**

Drawing from memory

Improving observation skills

Look at the object you are given closely for 1 minute
Now try and draw the object

This activity improves your observational skills

How hard do you look at something when you are drawing it?

Continuous Line drawing

Draw your object without taking your pencil off the page
You may have to double up on lines

The idea behind this is to encourage you to keep looking back and forth at your object you are drawing. You should be looking at your object most of the time and only glancing back to your drawing.

It also helps you to loosen up and gives a creative effect- Not all drawings need to look perfect!
