Supplementary views

Design Challenge Example

Design a product of your choice.

You will need to include the following:

- Sketched ideas
- Labels/annotation, highlighting key features
 - Colour to highlight key features

Present the information in the 3 boxes provided.

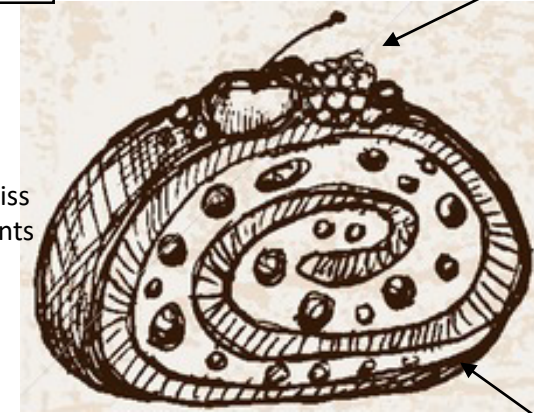

Inside view

The toppings can be altered to match different customers. So if they had a nut allergy, the fruit option could be used.

Main view

Produced like a swiss roll with the contents rolled up.

Fruit topping nestled in fresh cream

Inner swirl has chocolate chunks nestled in the butter cream.

Supplementary views

The roll would have an icing glaze on top with shaved nuts on top.

The internal structure of the cake has a chocolate swirl made with chocolate sauce or butter cream.

Design Challenge Example

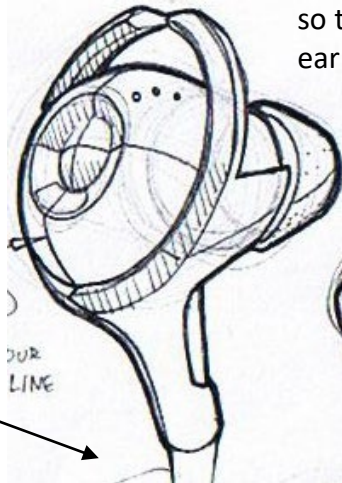

Design a product of your choice.

You will need to include the following:

- Sketched ideas
- Labels/annotation, highlighting key features
 - Colour to highlight key features

Present the information in the 3 boxes provided.

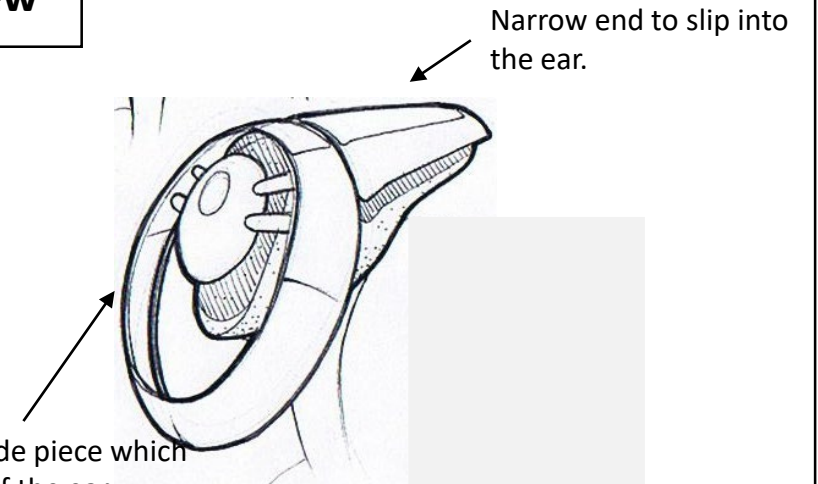

Alt view

Wired connection to the ear bud.

I have tried to change the angle of the circular blade so that it goes up over the ear entry area.

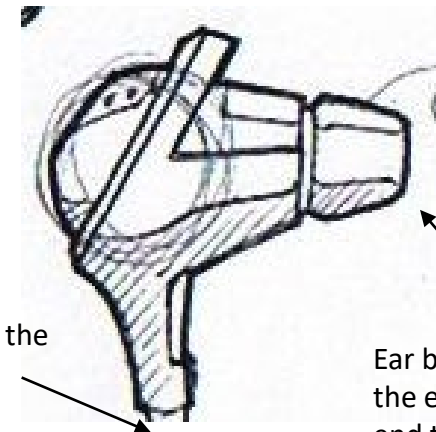

Main view

Circular blade piece which hangs out of the ear looking like a piece of jewellery.

Narrow end to slip into the ear.

Supplementary views

Wired connection to the ear bud.

Ear bud slides into the ear using a rubber end to keep it in place.
